

Matéflex®

The Original Modular Flooring

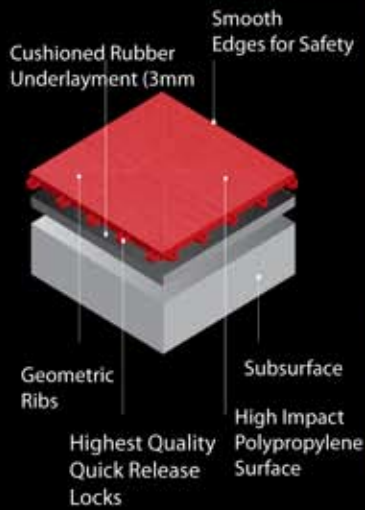

No Fault Sports Products, Inc.

WE KNOW SPORTS & FLOORING

ProGym

ProGym is our premier multi-purpose indoor gym flooring product. We put our knowledge and experience to work to create gym floor tiles that reflect the latest innovation in modular flooring.

We engineered **ProGym** to satisfy the needs of everyone, even the most demanding professionals. That resulted in excellent fitness flooring with traction and the comfort of superior resiliency. And that's not all - this tile is affordable and, with our redesigned interlocking, easier to install.

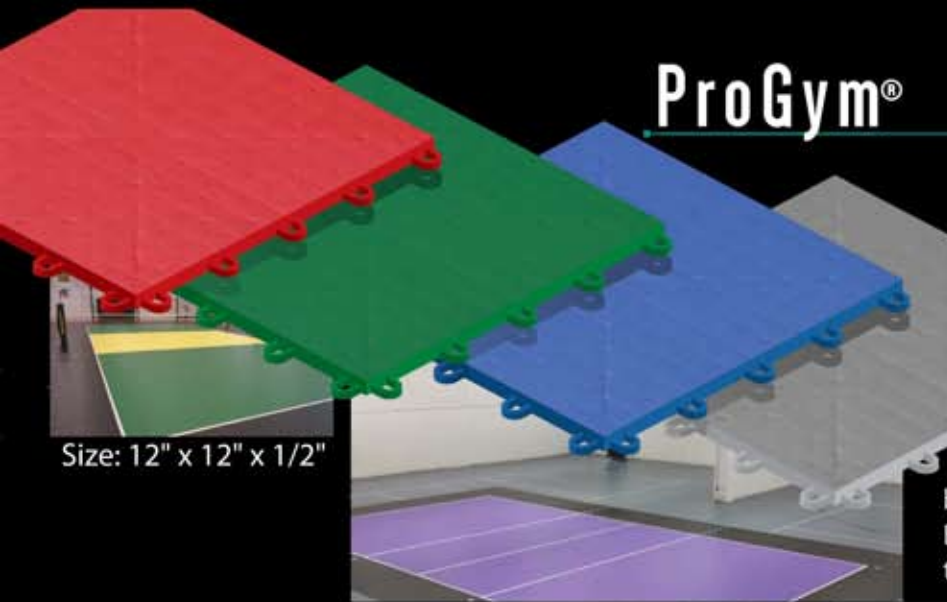

Like all of our products, **ProGym** floor tiles are portable, very low maintenance, and durable. It is available in all our standard colors, as well as custom colors, and complements your multi-purpose gym flooring needs.

APPLICATIONS:

- Gymnasiums
- Volleyball
- Indoor Basketball
- Recreation Rooms
- Multiple Use Facilities
- Aerobics, Futsal
- Indoor Field Hockey

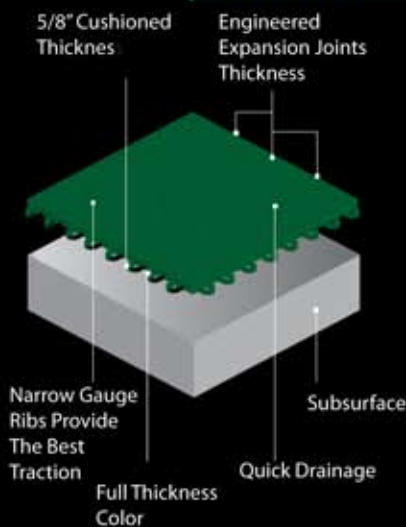

ProGym®

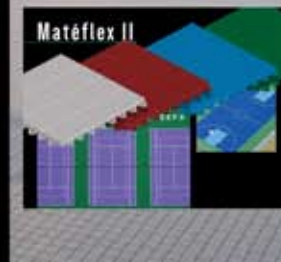

Size: 12" x 12" x 1/2"

The Matéflex II tile features a narrow gauge rib system for quick drainage, high traction, and good ball bite (less skid), which is ideal for tennis, Basketball, Backyard courts and shuffleboard. This is comparable to using a narrow gauge racquet string. Even after many years of wear and tear, these ribs will maintain the same width and therefore the same playing speed.

Matéflex II

Size: 12" x 12" x 5/8"

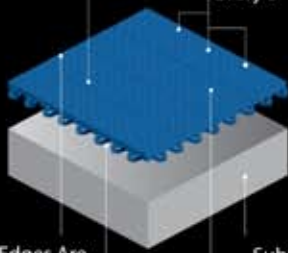

The Matéflex II incorporates a leaf spring type flex joint system. This has three important advantages; provides controlled lateral give during play to reduce muscle stress and enhance player comfort.

The Matéflex II is formulated as a high impact polypropylene copolymer flooring material and its state-of-the-art stabilizers insure that the product will last under any climate or weather condition.

HomeCourt

Unique Texture Improves Grip In All Conditions

Engineered Expansion Joints Every 3"

All Edges Are Rounded To Create A Truly Safe Surface

Subsurface

Heavy Duty Cylindrical Support Legs

Top Surface Design Makes Colors More Vibrant

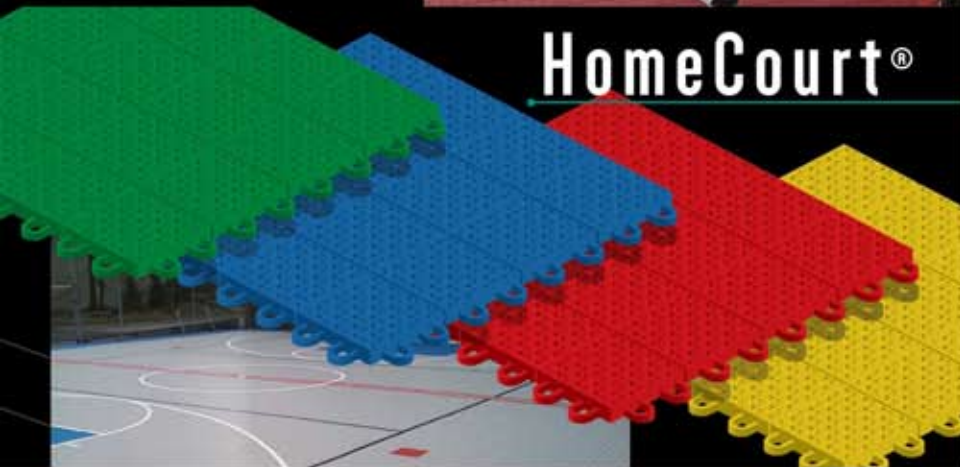

HomeCourt® is the ultimate year-round backyard court tile from the makers of the original modular flooring. We have over 40 years of experience manufacturing modular floor tiles and that experience shows in the quality and durability of this product.

HomeCourt® has narrow gauge ribs for excellent traction and the low-abrasion surface reduces wear and tear on sports equipment and shoes. The tile's expansion joints are designed so that the tiles can be trimmed tight to your fence or border to give your court a professional, finished look.

Best of all, **HomeCourt®** backyard courts are colorful, attractive and versatile. With 16 standard colors to choose from, any look is possible. And you can personalize it with custom logos and designs painted directly onto your HomeCourt® modular floor tiles.
